OUR VISION

Designed with fun and fascinating gaming plot to bring game players a good gaming experience.

Build a game based on the Play To Earn economic system to help thousands of low-income people around the world achieve income growth in the virtual world.

was established in 2014 with seven core members.

Getting to where you are today has been a long and exciting journey. We are delighted to create products that contribute to the joy of people all over the world.

We are focusing on building a strong community and listening to feedback right from the beginning.

Our vision for AngelValley is longterm.

WHAT IS ANGEI VALLEY?

Angel Valley is an enchanting role-playing blockchain game. It is being built on BinanceSmartChain. AngelValley's graphics are masterly brushstrokes with soft lighting effects, and the surroundings all give people a sense of illusion and reality. The game's world starts in the warm Alps, passing through quiet forests and barren deserts. Four seasons of weather and a meticulous biological environment, there are vast virgin forests, land and mineral resources and a variety of angels, each with a unique superpower, unique appearance and rarity.

Players will be immersed in a mystical forest and spend many relaxing hours raising creatures. AngelValley makes the world of the game more realistic to us, and it's a testament to the ingenuity of the makers.

Farm and gather resources with your Angel in your forest home.

ABOUT THE GAME

ANGEL

What is Angel?

Angel are adorable bipedal creatures that inhabit a lush and mysterious forest valley. They have a spiritual connection to the forest and use magical spells to maintain and protect it.

✦ Getting Your First Angel ✦

You can draw gems from the blind box on the game's official website, and when the game goes live, each gem can be exchanged for an angel. You will be paired with an Ancestor Angel to get you started on your adventure. Ancestor Angel can help you with basic tasks.

LEVEL UP YOUR ANGEL

Increase Your Angel's Reward Potential

Angel Level

Battle against wild cursed Angel and other trainers to increase your Angel's level. A angel with a higher level can defeat stronger foes & receive better rewards.

Angel Spells

Send your Angel to the Angel Sage to learn spells. Increasing your Angel's spell level will allow it to gather valuable in-game tokenized resources,even while you are offline.

Angel Happiness

Feed your Angel its favourite food to increase its happiness level. A higher happiness level unlocks higher staking reward APY when a Angel is assigned to the Shrine of Giving.

Eyes

Horns

Ears

Mouth

Type

Type determines skin colour

Tail

Coat

Pattern

MAIN TYPE : FLOWER
COAT TYPE : FEATHER

ANGEL BODY PARTS

Each Angel is a unique NFT creature made up of a rare combination of: type, coat, ears, horns, eyes, mouth, and pattern.

Angel have a main type and a coat type, but these don't have to match, **you can even have a River type Angel with a Flame type coat!** In total, there are 15 main types, each with 10 coat variations, this means that there are 150 coats that can appear on any type of Angel. Combining type and coat with hundreds of body parts and patterns results in almost **infinite unique Angel.**

If you are lucky, breeding may result in rare body parts such as shiny coats or even ultra rare mini Angle!

ANGEL BREEDING CHART

TIER 1

NEUTRAL FOREST CAVE FLAME RIVER MOUNTAIN SPARK INSECT

TIER 2

FEATHER CRYSTAL FROST FLOWER

TIER 3

CREATURE SPIRIT

TIER 4

VOID

You can breed any type of Angel together. Breeding compatible types will result in a chance to create higher tier Angeltypes.

ANGEL BATTLE

Attacks, Effects & Abilities

When a Angel is born it inherits 2 attack moves, 2 effect moves and an ability from it's genetics.

A Angel's first attack move is based on its main type, and its second attack move is based on its coat type. This will result in some interesting battle strategies and team building meta.

Type	Attack:	Shadow Absorb
Coat	Attack:	Luminous Rush
Eyes	Attack:	Luna Leer
Mouth	Attack:	Light Bite
Pattern	Attack:	Shadewalker

MAIN TYPE : FLOWER
COAT TYPE : FEATHER

BATTLE STRATEGY

The AngelValley battle system is a creative mix of Pokemon style battles with an extra layer of strategy, **easy to learn but difficult to master.** Angel earn Experience and level up by winning battles.

Each time a Angel's level increases by 5, it will need to eat a Candied Apple to progress to the next level. You can craft Candied Apples by combining Magic Crystal Shards + apples.

CURSED ANGEL

Angel are peaceful and loyal by nature but a dark forest presence is cursing them. **Cursed Angel will attack anything,** defeat them to banish the curse, gain Experience, and earn Magic Crystal Shards.

WEAKNESSES	TYPE	STRENGTHS
	NEUTRAL

	MOUNTAIN	
	FROST	
	FEATHER	
	FLOWER	
	CRYSTAL	
	SPIRIT	
	CREATURE	
	VOID	

GAMEPLAY

FOREST HOME

Wake up in a relaxing forest valley and meet your first Angel. Learn to work together as you **live off the land and expand your Angel team**. Gather resources to craft usable NFT items and decorate your world. Clear the overgrowth, build a home, and become an expert Angel trainer!

EXPLORATION

Power up an ancient portal and step through with your Angel by your side. **Explore randomly generated terrain** in various biomes, find rare NFT items and encounter cursed Angel in the wild. Day and night cycles, weather, and seasons will ensure that exploration stays fresh and exciting.

FARMING

Find rare seeds and start a farm to **grow forest crops that have many uses**. Crops are in-game tokenized items, they need to be watered regularly and will grow on blockchain based time. Certain crops can even be combined with Magic Crystal Shards to make a Angel's favourite food.

GAMEPLAY

OFFLINE REWARDS

Angel are masters of the land, they can learn spells that will enable them to **automatically gather in-game tokenized resources, even while you are offline**. Send your Angel to the Angel Sage and it can learn spells to water crops, chop wood, collect stone, catch fish, and more.

ANGEL FOSTERING

AngelValley will feature a safe built-in fostering system that will allow players to temporarily send their Angel to other players, and have them return on request.
While another player is looking after your Angel you will **automatically collect an adjustable percentage of all rewards** earned by your Angel. This will allow for exciting in-game "businesses" to form which will further power the ecosystem.

ANGEL VILLAGE

Angel Village will feature **NFT based plots of land with in-game ownership**. Here you will find other players and their Angel working on their plots, chatting, showing off rare items, trading, shopping, and more. Land owners will also have **access to special events** such as capturing wild Angel and fighting together in raids against giant cursed Angel.

PLAY TO EARN

Choose Your Own Path

Angel Valley will feature multiple in-game earning paths. As players expand their Angel team and improve their Angel's skills they will be able to complete more play-to-earn tasks.

Some players may choose to focus on battling, whereas others may take a more relaxed approach and focus on exploring and farming.

Earn Rewards in Angel Valley

- Battle Cursed Angel & Other Players
- Farm & Sell Forest Crops
- Craft and Sell Rare NFT items
- Explore to Find Rare NFT items
- Complete In-Game Quests
- Breed Rare Angel

- Angel Marketplace
- Powerful Referral System
- Season and Events: Get High Rankings to win lucrative rewards
- Buy and Sell Village Land Plots
- 'Shrine of Giving' Rewards
- Angel Treasury Rewards

TEMPLE OF GIVING

We are excited to announce that Angel Valley will feature a fully gamified, high-APY, in-game ANS staking interface called the "Temple of Giving".
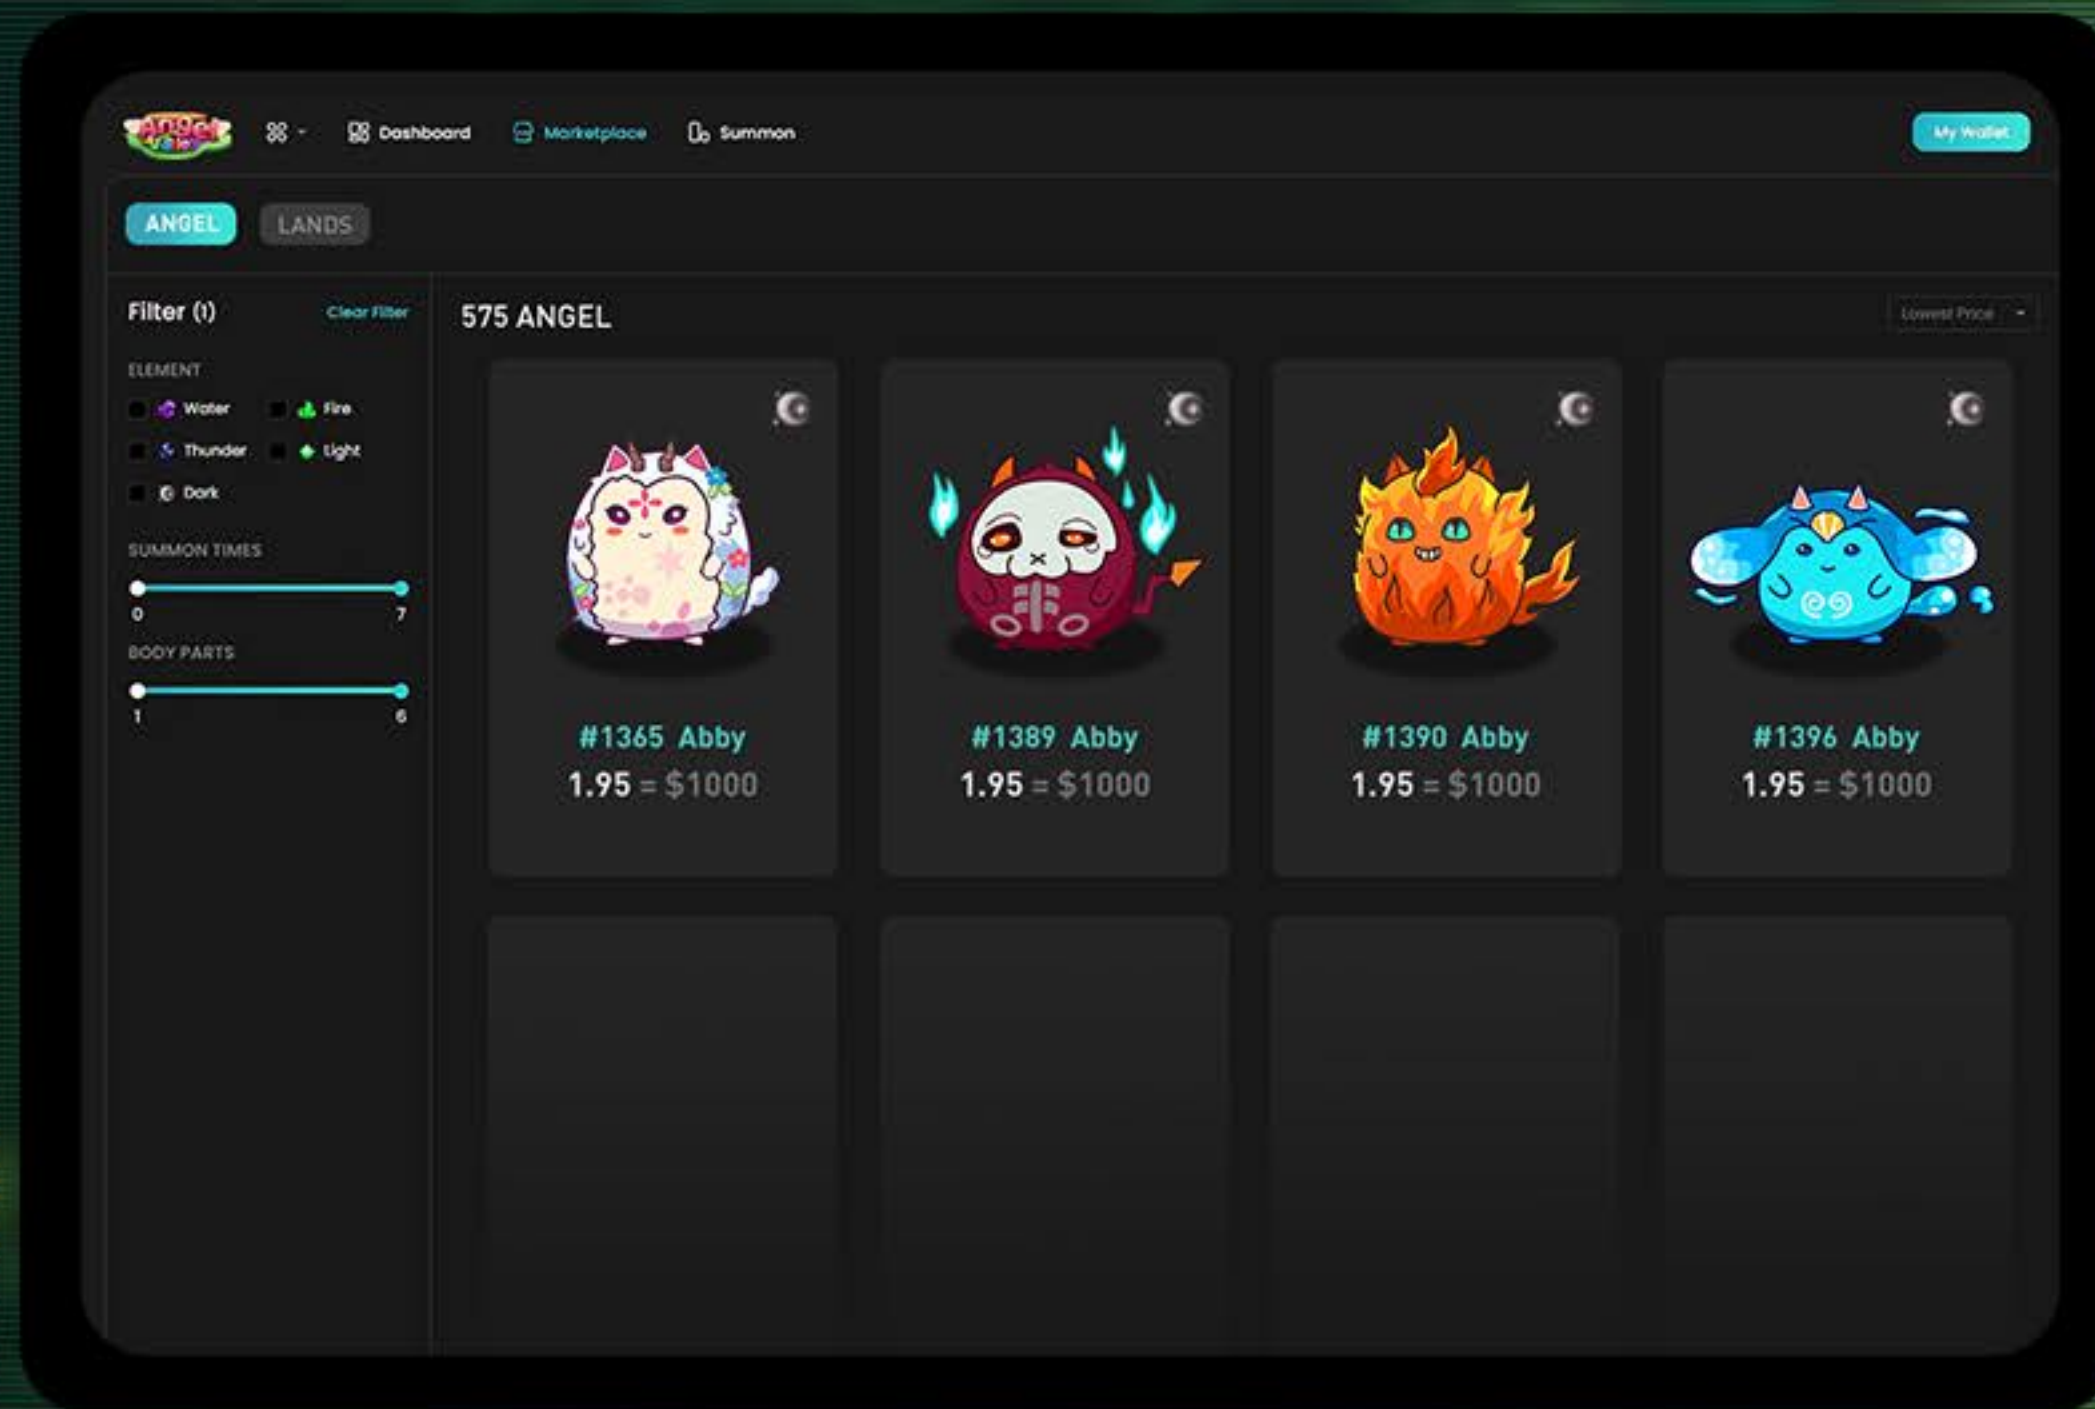

Angel are hoarders by nature and have long worshiped the Temple of Giving, an ancient monument possessing the ability to multiply an Angel's precious items. Players will eventually be able to lock their ANS tokens into the Temple of Giving, reducing the circulating supply and receiving ANS tokens and NFT items as rewards. Additionally, a player can assign a Angel to the Temple to unlock increased staking rewards. A angel with a maxed happiness level will unlock an APY significantly higher than the base rate and will become a prized NFT.

(!) An Angel's happiness increases when fed it's favourite food, this is crafted by combining Magic Crystal Shards + farm grown ingredients.

MARKETPLACE

Marketplace website mockup only.
Contains placeholder information.

Online Marketplace

Our web based marketplace will be a crucial part of the Angel Valley ecosystem. The marketplace will encourage players to work hard on acquiring and improving rare Angel and items.

Buy, sell and trade:Angel, land plots, cosmetics, game items, crops, resources, and more.

Wandering Trader

The Wandering Trader can be found setting up shop around your forest home. His shop inventory changes each day and all players will see the same items for sale. **These game items are NFTs and some will even be scarce, with limited quantities.**

The Trader's wares will include: useful items, seeds, Angel cosmetics, player cosmetics, decorative items, and more. The trader will also buy crops and resources from the player in exchange for Magic Crystal Shards.

Deflationary: Eventually via "AngelValley Treasury" buy and burn.

Angel Valley Shards (ANS) are an BSC governance token for the Angel Valley universe. Holders will shape the future of Angel Valley by signaling their support for upgrades to the ecosystem and directing usage of a Community Treasury. ANS Token will be deeply tied into the game's ecosystem. ANS will eventually become deflationary and players/holders will be incentivized to hold, causing natural price growth, this will be achieved in the following ways:

- ANS will be required as the primary form of in-game currency. Players will need ANS to pay for new Angel, breeding fees, Sage fees, Wandering Trader items, land plots, Marketplace purchases,. Additionally, the "AngelValley Treasury" will eventually buy and burn ANS, making it naturally deflationary as the ecosystem grows.

- ANS will eventually provide holders with the opportunity to actively participate in the future directions of the game! The project will slowly and safely shift from an initial "chaperoned" structure to a fully decentralized online game. ANS holders will be able to participate in governance voting in the future as part of an upcoming DAO/DAC, allowing them to shape the future of AngelValley

- ANS will eventually present holders with staking rewards when locked in the Temple of Giving. As holders lock their ANS they will decrease the circulating supply and will be rewarded with additional ANS based on their Angel's happiness level.

TOKENOMICS

Magic Crystal Shard: $MAS

Magic Crystal Shard（mas) is Angel Valley's secondary token, it has been designed to power the "play-to-earn" player reward system. Mas has an infinite supply but is also required and burnt in the four core Angel mechanics: breeding, leveling, spells, and happiness. This makes Mas a prized commodity as it is required to create new Angel and to improve them.

PRIMARY TOKEN

$ANS

In-Game Purchases

SECONDARY TOKEN

$MAS

Play-to-Earn Rewards

- Players can earn MAS by battling wild cursed Angel, the stronger the foe, the more MAS is rewarded (PvE). Players can also battle other players all around the world and win MAS for their victories(PvP).

- Additionally, players can obtain MAS by exploring, completing in-game quests, farming crops, gathering resources, and selling in-game assets and items to the Wandering Trader.

- MAS will be minted each time a player completes a "play-to-earn"task, and it will also be burnt in increasing quantities as players breed and improve their Angel. The AngelValley team will keep a close eye on the inflation rate and ensure that an optimal balance is maintained between supply and demand.

TOKENOMICS

AngelValley Treasury

In the medium term, we plan to launch a "AngelValley treasury" feature. It will work as a "safe" and an insurance on the project's future full decentralization, by receiving, progressively, up to 75% of all game crypto contributions. The treasury will strengthen the ecosystem through buying and burning of ANS &MAS tokens in the secondary markets for stability purposes, but also: planting real trees, charity donations, player rewards, in-game events, and more.

(!) Many of the most successful crypto projects and protocols have one key attribute in common: they generate their own funding. Angel Valley plans to do this in various ways ⟶

Ways in which Angel Valley will self sustain and grow:

Marketplace Fees

Angel Breeding Fees

Angel Sage Fees

Wandering Trader Sales

ROADMAP

STAGE 1

- Project Concept
- Determine Game Mechanics
- Angel Design Concepts
- Mini Site Launch
- Social Media Presence
- Telegram/Twitter Ads
- Art Contests
- 20 Page Litepaper Release
- Private Sale
- Press Release Articles
- Social Media Influencers

STAGE 2

- Full Website with Team
- Angel Valley Shards (ANS)/NFT Contracts
- Marketing Partnerships
- Community Growth
- Video Trailer Release
- Blind Box Launch
- Angel Valley Web Marketplace
- NFT Farming Launch
- Seed Angel NFT Presale
- Launch Angel Token on Pancake Swap
- Expand Team

STAGE 3

- Aggressive Marketing
- Angel Village Land Sale
- Smart Contracts Audits
- Seed Angel Breeding Event
- Merch Shop
- "Seed Angel" Beta Gameplay Access
- Original Game Soundtrack
- Public Beta Gameplay Access

STAGE 4

- Ancient Portal Exploration
- Cursed Angel Battles (PvE)
- Power Stone $POS Launch
- Mobile App (Android/iOS)
- Multiplayer Battles (PvP)
- Angel Spells (Offline Rewards)
- Temple of Giving ($ANS Staking)
- Angel Village Launch
- AngelValley Treasury
- Secret Angel Types Announced
- DAO Setup and Game Platform Governance

Don't miss out on our NFT & Token Sale announcements.
